

6 September 2018

AEM International, Ltd.
5560 W. Chandler Blvd., Ste 3
Chandler, AZ 85226
Mr. Chris Di Minico

Dear Chris,

This letter is to inform you that The Siemon Company has approved the TestPro 100 Cable Certifier to be used in testing Siemon's copper connectivity solutions for both Channel and Permanent Link configurations for Cat 5e, Cat 6, and Cat 6A (Class D, E, and EA) performance with firmware version 1.2 or later, in conjunction with the appropriate TestPro adapters (p/n AD-CAT6A-CH and AD-CAT6A-PL).

Siemon also accepts the test results provided with this tester for all Cat 5e, Cat 6, and Cat 6A (Class D, E, and EA) Siemon warranty programs.

We will be notifying our global listing of authorized installers of this approval and will update our Field Testing requirements for warranty purposes to include the AEM TestPro 100 Cable Certifier. This information will be posted on our website at http://www.siemon.com/int/field_testing/aem.pdf.

Sincerely,

A handwritten signature in black ink, appearing to read "B. Celella", with a stylized flourish at the end.

Brian Celella
Principal Electrical Engineer
