

June 3, 2019

Lisa Schwartz, Dir. Product Marketing
AEM International, Ltd.
5560 W. Chandler Blvd., Ste 3
Chandler, AZ 85226

Dear Lisa,
This letter is to confirm that General Cable, Prysmian Group has approved the
TestPro CV100 Multifunction Cable Tester to be used in testing General Cables'
copper connectivity solutions for both Channel and Permanent Link configurations
for Cat5e, Cat6, Cat6A performance with the firmware version 1.2 or later.
General Cable also accepts the test results provided with this tester for all General
Cables' warranty programs, provided they meet the warranty conditions.

Sincerely,

James Malkemus
