**Subject: AEM TestPro CV100 Handheld Test Equipment Approval For Copper Testing**

Dear Mr Tan,

Effective immediately, Nexans is pleased to announce the approval of the AEM TestPro CV100 Handheld Tester for Class EA (Cat.6A) & Class II (Cat.8.2) link and channel testing. This approval is based upon evaluation of the TestPro CV100 versus network analyzer by Nexans Labs.

TestPro CV100 is approved for use in Channel certification testing with all of our Class II, Class FA, Class F, Category 6A/Class EA, Category 6/Class E and Category 5e/Class D system warranties.

The following configuration of TestPro CV100 is required:

- TestPro CV100 firmware version 3.6.A16 or higher
- TestDataPro PC software version 3.6.114.0 or higher
- Channel testing for Class II and Class FA  
with AD-8.2-GG45CH pair of Cat.8.2 channel adapters for GG45 interface
- Channel testing for Class EA, Class E and Class D  
with AD-CAT6A-CH pair of CAT 6A channel adapters
- Link testing for Category 6A, Category 6 and Category 5e  
with AD-CAT6A-PL pair of CAT 6A Permanent Link adapters

We will be notifying our global listing of authorized installers of this approval and will update our Field Testing requirements to include the TestPro CV100.

We look forward to our continued partnership.

Best regards,

Didier Willems  
Head of Technical Support, Training & Certification  
Telecom Systems
