Lisa Schwartz, Dir. Product Marketing  
AEM International, Ltd.  
5560 W. Chandler Blvd., Suite 3  
Chandler, AZ 85226

Dear Lisa,

Belden has completed the evaluation of the TestPro CV100 Multifunction Cable Tester. We are pleased to announce the approval of the TestPro test equipment with firmware 2.1.A1 or higher for use in channel performance verification up to 500 MHz of Belden's IBDN 1200, 2400, 4800 and 10GX cabling systems.

The evaluation was made in our laboratories using the TestPro CV100 Multifunction Cable Tester, firmware version 2.1.A1 and TestDataPro PC Software 2.1.104.0. The results obtained correlate within the expected accuracy for Level IIIe field testers.

We look forward to continued cooperation with AEM International, Ltd. in the future to evaluate new software updates and product features as they become available.

Sincerely,

Ronald L. Tellas  
Technology and Applications Manager, LAN
